## Clean and Green Campus Initiatives

The college has made Green Audit in the academic year 2018-22. Details of the tree till the end of June 2022 in the college premises.

- The College has made the following efforts to keep the campus clean
- The college has arranged for hired laborers for daily cleaning.
- Daily arrangements have been made for cleaning.

### **Toilet cleaning:**

- College staffs, students have arranged cleaning labor on call basis for required days of the week for toilet cleaning.

### **Shramdan from students:**

- College Campaign Cleaning Campaign is implemented by the college students as per the requirement. Students of NSS Earn and Learn Scheme are participating in this activity.

### **B) The College has made the following efforts for Green Campus:**

Hired laborers are provided for watering Servants for watering campus plant.

- All the trees in the college, water supply for the lawn of the college, maintenance and upkeep of the trees.
- Bore wells and elevator motor pump system.
- To provide permanent water supply to the trees and lawns, two bore wells and two elevator motor pumps have been provided to provide water to the trees throughout the year.

### **Electric wireman availability:**

- Electric Wireman is available on call basis to ensure immediate and uninterrupted supply of water to the trees in case of faulty elevator motor pump system.

#### **Increase in annual plantations:**

- The college is increasing the number of tree plantations every year. Naturally damaged trees are being replanted and tree conservation activities are being carried out continuously.

#### **Tree planting and conservation by students:**

- The Earn and Learn Scheme of the College is for tree planting and conservation by NSS students.

#### **Rainwater harvesting:**

- The rainwater from the roof of the college office is collected and transported through a pipeline to the storage pond.

#### **Bore well recharge:**

- Arrangements have been made by the college to recharge the bore wells in the college

Subject- Invitation as a Resource Person for Ozone Day Programme....

Dear Sir,

We are very much pleased to invite you as a Resource Person for the programme of Ozone Day organized in our college on 16 September, 2022. We hope that you will enlighten our students by your expertise and oblige us.

Thank you

Yours faithfully

**Ozone Day Report**  
**2022-23**

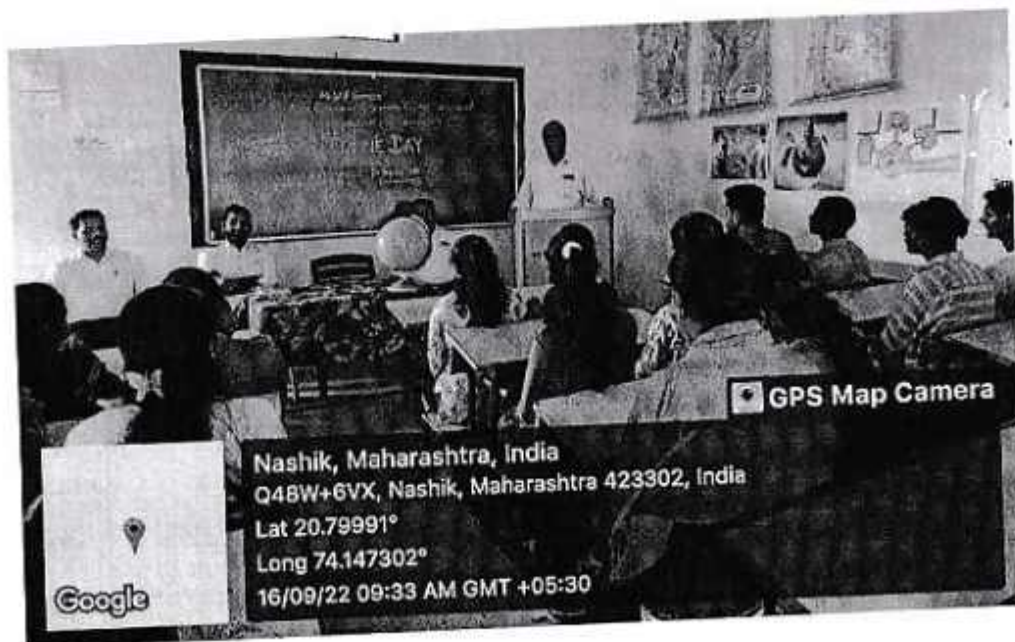

Dt. 16 Sep. 2022

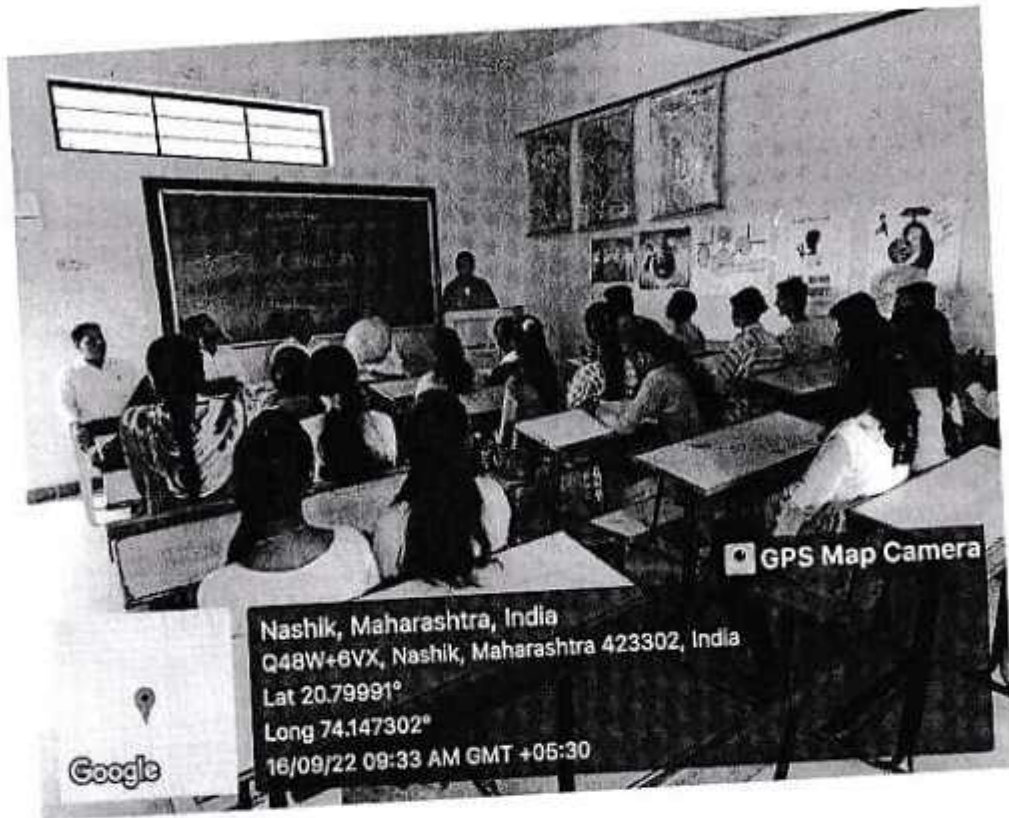

Like every year, "World Ozone Day" is celebrated by IQAC and the Department of Geography. It was celebrated on 16th September 2022 in the college. The program was presided over by the Vice principal of the college, Prof. D.D.Bacchav was graced by Prof. L.S.Surywanshi was invited as the chief guest. Head of Geography Department of the College. Introduced by Prof. Umesh Patole In the introductory part, he mentioned why World Ozone Day should be celebrated. Geography Department Prof B.B.Shingade introduced the chief guests. After that the chief guest Dr.N.N.Gholap, HOD, Satana College interacted with the students through a PowerPoint presentation. In his lecture on the importance, causes, effects and remedies of Ozone Day, he said that "The ozone layer is found at a distance of 16 to 25 kilometres from the earth, and the formation of this layer is continuous. This layer protects living things from the sun's ultraviolet rays, but various man-made products and pollutants affect gases such as chlorofluorocarbons and hydrofluorocarbons in the ozone layer." The polar region is also known as the 'Ozone Hole' because of its extremely low ozone content. Ozone depletion is estimated at 60 percent per year in Antarctica and 30 percent in the Arctic. This has a direct effect on the melting of ice on the poles, which is endangering the living things their Sea levels are also rising as the ice melts, reducing the land area.

Many environmental and health problems are being caused by the depletion of ozone in our atmosphere due to the same effect of pollution on our terrain on the ozone layer. The sun's ultraviolet rays come directly to the earth, causing sunburn, skin cancer, and cataracts and eye disorders. This has a detrimental effect on the organism and the tree and slows down the food production process Ozone is a greenhouse gas and pollutant that is dangerous to humans and living things Industry has led to an increase in ozone levels in the soil. In areas where coal is burned in the air, hydrocarbons and nitrogen oxides are pollutants, and vehicles and industries are predominant, ozone gas is produced by the sun's rays. This gas is dangerous for agriculture. This is because it slows down the photosynthesis process of the crop and reduces the yield. Ozone gas damages rubber, car tires, plastic items. A slight increase in gas can cause respiratory problems and affect the lungs. Asthma and heart disease are also possible. Premature death is also possible with constant exposure to ozone. So, people should be aware of the environment. "To stop the depletion of the ozone layer, the use of personal vehicles should be reduced and public transport should be used, more trees should be planted, air conditioners and refrigerators should be used as needed," said Dr. Gholap sir. The principal of the college, Prof. D.D.Bacchav in her

presidential address said, "Every citizen needs to make efforts to save ozone gas and it is the responsibility of each and every one of us to stop the depletion of ozone gas." World Ozone Day program was hosted by Prof B.B.Shingade, then Prof. L.S.Suryawanshi thanked everyone. The program was attended by a large number of faculty, staff and students of the college.

**Action Taken Report of Green Audit Suggestions**

The college conducts a Green Audit regularly. Following is an action taken report of the Green Audit 2022-23.

Sr. No.	Recommendation	Action Taken
1	The college should celebrate one day of the month as No Vehicle Day.	It was decided to celebrate one day as a No Vehicle Day.
2	In order to create interest in environment among the students, it is necessary to organize various environment days in the college and celebrate it with enthusiasm. These mainly include water conservation, tree planting, celebration of Pollution Control Day, celebration of Ozone Day, etc.	It was decided to celebrate various environmental days/ program as Ozone day, Geography day, Tree plantation etc.
3	80 percent of the entire amount of ground water taken must be returned to the ground using Artificial Recharge Structures on campus.	The rain water harvesting facility is available in the college. It was decided to recharge bore well with used water.
4	Display boards for turning off the taps and lights should be placed in a suitable location	The awareness boards have been placed.
